Teaching

Courses Taught

Teaching & Learning with Technology (Undergraduate, online, 7x)	2017-2020
<ul style="list-style-type: none"> * Course topics include design thinking, universal design for learning, media & information literacy, professional learning networks, computational thinking, and play-based learning. * Students develop plans for integrating technology in classroom. * The semester-long project is to design a professional <i>online portfolio</i>. 	
Learning Technology by Design (Master's, online, 3x)	2018-2020
<ul style="list-style-type: none"> * Course topics include design thinking, the design process (empathize, define, ideate, prototype, test), designing for learners, iterative design. and collaboration in design. * Students discuss examples of good and bad designs from everyday life. * The semester-long project is to work through one cycle of the design process to address a <i>problem of practice</i> from the student's professional context. 	
Electronic Assessment for Teaching and Learning (Master's, online, 3x)	2018-2020
<ul style="list-style-type: none"> * Course topics include foundational theories of assessment, formative assessment, feedback, and a critical examination of methods for assessment (e.g., portfolios, rubrics, surveys, tests, self-evaluations). * Students develop an <i>assessment design checklist</i> to use in their own professional practice. * The semester-long project is to plan a <i>formative assessment design</i> to implement in their own context. 	
Teaching Students Online (Master's, online, 1x)	2017

- * Course topics include foundations for online learning, course management systems, various models of online course design, instructor-student communication, assessment, universal design for learning, and online classroom management.
- * Students playfully explore Google Apps, course management systems, screencasting tools, and file management systems.
- * The semester-long project is to design a curriculum for an *online course module* consisting of 3-5 interconnected lessons, which may include training sessions or non-traditional courses.
