## Interests

### Networked Learning in Online Communities:

- \* *Social media*: online learning environments, affinity spaces, learning ecology
- \* *Learning analytics*: social network analysis, discourse analysis, natural language processing
- \* *Educational data mining*: digital traces, big data

### Featured Projects:

- \* Transition Support Systems with Social Media
  - \* Educational Twitter Hashtags
  - \* Teaching-Related Subreddits
  - \* Social Scholarship
  - \* Data Science in Education
- 

## Education

### *Michigan State University*

**Ph.D.**, Educational Psychology & Educational Technology 2021

\* Dissertation: *"I filled a lot of gaps": How and why new teachers expand induction support systems with social media* (defended on March 19, 2021)

\* Committee: Matthew Koehler, Christine Greenhow, Ralph Putnam, Gail Richmond

**M.A.**, Educational Technology 2015

**Graduate Certificate**, Serious Game Design and Research 2014

### *Bucknell University*

**B.A.**, Mathematics & Sociology 2003

---

## Awards

**Clifford E. Erickson Memorial Fund Scholarship** 2020

Michigan State University, College of Education East Lansing MI

**Featured Research** 2020

Association for Educational Communications and Technology (AECT) International Convention Online

**Outstanding Paper Award** 2020

Society for Information Technology & Teacher Education (SITE) International Conference Online

**Disciplinary Leadership Award** 2019

Michigan State University, Council of Graduate Students East Lansing MI

**Outstanding Paper Award** 2019

Society for Information Technology & Teacher Education (SITE) International Conference Las Vegas NV

**Outstanding Paper Award** 2017

Society for Information Technology & Teacher Education (SITE) International Conference Austin TX

## Teaching

### *Courses Taught*

<b>Teaching &amp; Learning with Technology</b> (Undergraduate, online, 7x)	2017-2020
<ul style="list-style-type: none"> <li>* Course topics include design thinking, universal design for learning, media &amp; information literacy, professional learning networks, computational thinking, and play-based learning.</li> <li>* Students develop plans for integrating technology in classroom.</li> <li>* The semester-long project is to design a professional <i>online portfolio</i>.</li> </ul>	
<b>Learning Technology by Design</b> (Master's, online, 3x)	2018-2020
<ul style="list-style-type: none"> <li>* Course topics include design thinking, the design process (empathize, define, ideate, prototype, test), designing for learners, iterative design. and collaboration in design.</li> <li>* Students discuss examples of good and bad designs from everyday life.</li> <li>* The semester-long project is to work through one cycle of the design process to address a <i>problem of practice</i> from the student's professional context.</li> </ul>	
<b>Electronic Assessment for Teaching and Learning</b> (Master's, online, 3x)	2018-2020
<ul style="list-style-type: none"> <li>* Course topics include foundational theories of assessment, formative assessment, feedback, and a critical examination of methods for assessment (e.g., portfolios, rubrics, surveys, tests, self-evaluations).</li> <li>* Students develop an <i>assessment design checklist</i> to use in their own professional practice.</li> <li>* The semester-long project is to plan a <i>formative assessment design</i> to implement in their own context.</li> </ul>	
<b>Teaching Students Online</b> (Master's, online, 1x)	2017

- \* Course topics include foundations for online learning, course management systems, various models of online course design, instructor-student communication, assessment, universal design for learning, and online classroom management.
- \* Students playfully explore Google Apps, course management systems, screencasting tools, and file management systems.
- \* The semester-long project is to design a curriculum for an *online course module* consisting of 3-5 interconnected lessons, which may include training sessions or non-traditional courses.
